

Sleep in peace – Christophe Madrolle
Piste 4

Code ISWC : **T-703.400.942.4**

I send you those words
So you can be concerned with what is happening in this world
Remember those who
Have been persecuted and burned simply because they loved differently

Get involved in this era and count
All the men and woman who have fallen
See them today don't let them fall again,
Then kiss and bless their union

Let's walk together for a new tomorrow

Sleep in peace
Let go of your bullets, let go of your hate
Free our love and fraternity
Sleep in peace
The birth of a monument in the name love
Let's walk for the revolution

Look at these lovers holding hands
It would be the greatest gift of all time (to live)
In a changing land
Where we could write and shout out loud the word equality

Take a hold of your future and decide
For which rights and values you'll depend on
Get up for the good cause, go on and vote
Freedom for us all, freedom for our soul

Let's walk together towards a new tomorrow

Get involved in this era and count, all the men who would like to...
